 Promotion code >

After the payment you will receive a protected QR code, which is your "pass". You need to scan it at the metro entrance to enter the metro. When you travel with the surface public transport you have to show it to the ticket inspector.

You can buy the card just before entering the metro. It takes 45 seconds for validation. Once you have entered you cannot enter again with the same card within the next 5 minutes.

One day pass

One day pass is valid for travelling with all day lines of the public transport in Sofia, which include ground and underground transportation.

One day pass is valid for a limited time period. For successful activation of your pass are required 60 seconds after the purchase.

To enter the subway you need to scan the QR code on the designated barriers. Hold your code 10 cm away from the scanner.

To travel with the ground transportation there is no need to validate your transport pass after entering the vehicle. Transport pass validity matches working hours of day lines in the date of purchase. The document can be used from one passenger only.

Show the QR code to the control officer when asked.
